📝 STUDENT SELF-ASSESSMENT · YEAR 7–8

Water Safety

Self-Assessment & Reflection

Rate your confidence, reflect on what you've learned, and set yourself a goal for what comes next. Be honest — this is for you.

Year 7–8 HPE | Victorian Curriculum 2.0 | VC2HP8P08 · VC2HP8P09 · VC2HP8P10 | VC2HP8M01

STUDENT NAME	CLASS	DATE

> **How to use this sheet:** For each statement, click (or circle when printed) the face that best shows how you feel about your learning. There are no wrong answers — being honest helps you improve. At the end, set yourself one goal.

Rating: 😟 I'm not sure yet 😐 I'm starting to get it 🙂 I'm getting there 😊 I've got this!

🎯 Setting a goal, and checking it

This page is mostly for the end of the unit. This first part is not — fill it in during **Lesson 1**, before you know most of the content. You will come back to it twice. Setting a goal and then actually checking whether you met it is a different skill from doing the work, and it is the one that makes you better at learning anything, not just this.

STEP 1 · LESSON 1 · PLAN

What am I aiming at?

Pick one thing. Make it something you could actually check — “get better at water safety” cannot be checked, “be able to run DRS ABCD without looking at a card” can.

By the end of this unit I want to be able to…

© 2026 Emilie Harrison · CC BY 4.0 · emilie-harrison.github.io/swim-water-safety · Third-party content excluded

I will know I have got there when…

What I already know about this (be honest — even if it is “almost nothing”):

STEP 2 · AFTER LESSON 3 · MONITOR

Am I on track, and is what I am doing working?

Halfway. This is the step almost everyone skips, and it is the one that matters — a goal you only check at the end is a wish.

Closer, the same, or further away than I expected? Why?

One thing I am doing that is working:

One thing I will change for the rest of the unit:

STEP 3 · END OF UNIT · EVALUATE

Did I get there — and how do I know?

Answer against the evidence, not the feeling. Point at something: a score, a task you can now do, a time you used it.

Did I meet the goal I set in Lesson 1? What is my evidence?

If not, what got in the way — and was it the goal or the approach?

What would I do differently next time I set myself a goal?

Then complete “My Goal” at the end of this page — that one is about what you do after the unit finishes.

🏖 Beach & Water Safety Knowledge

VC2HP8P08 · VC2HP8P10

© 2026 Emilie Harrison · CC BY 4.0 · emilie-harrison.github.io/swim-water-safety · Third-party content excluded

I can…	😟 😐 🙂 😊
Name and explain all five LSV SwimSafe rules correctly	
Explain what red and yellow flags mean — and where to swim	
Explain what a single red flag means and what I should do	
Explain what an orange windsock flag means (inflatables and offshore winds)	
Describe what a rip current looks like and how to identify one at the beach	
Explain the correct escape technique if caught in a rip current	
Identify at least three differences between a patrolled and unpatrolled beach	
Explain why swimming at an unpatrolled location is significantly more dangerous	
List at least three hidden hazards at inland waterways (rivers, dams, lakes)	

🩺 Emergency Response

VC2HP8P09 · VC2HP8M01

I can…	😟 😐 🙂 😊
Name all seven steps of DRS ABCD in the correct order	
Explain what to do at each step of DRS ABCD in plain language	
Explain what to tell the operator when calling 000	
Explain the CPR ratio (30:2) and why the rate and depth matter	
Explain "Throw, Don't Go" and why untrained rescuers should not enter the water	

I can…	😟 😐 🙂 😊
Describe at least three things you can throw to help someone in the water	
Explain what secondary drowning is and why any submersion needs medical review	
Describe when you would use an AED and how to use it safely	

🧠 Decision Making & Safe Behaviour

VC2HP8P08 · VC2HP8P09

I can…	😟 😐 🙂 😊
Give a reason why peer pressure can lead to dangerous decisions near water	
Describe how I would say no to a dare to swim somewhere unsafe	
Explain why alcohol near water is dangerous	
Explain what the bystander effect is and how to overcome it	
Describe what I would do if I saw someone in distress in the water	
Name one specific action I will take to stay safer near water	

🏊 Practical Skills

VC2HP8M01

I can…	😟 😐 🙂 😊
Perform a survival float for at least 2 minutes	
Tread water for at least 2 minutes without touching the pool floor or sides	
Swim at least 50 metres continuously using any stroke	

© 2026 Emilie Harrison · CC BY 4.0 · emilie-harrison.github.io/swim-water-safety · Third-party content excluded

I can…	😟 😐 🙂 😊
Perform a clothed float and swim at least 25 metres	😟 😐 🙂 😊
Demonstrate or describe the correct throw rescue technique	😟 😐 🙂 😊
Demonstrate the correct distress signal (raising one arm)	😟 😐 🙂 😊
Describe how to enter cold water safely (feet first, controlled)	😟 😐 🙂 😊

📊 My Overall Progress

💬 Reflection Questions

💡 1. What is the most important thing you learned in this unit?

Think about what really surprised you or what you'll actually remember and use.

🔍 2. What is one thing you're still unsure about?

Being honest about this is a sign of strong learning — not weakness.

🌊 3. Describe a real-life situation where you might use what you learned in this unit.

Think about your own life — where do you go near water? What could happen?

© 2026 Emilie Harrison · CC BY 4.0 · emilie-harrison.github.io/swim-water-safety · Third-party content excluded

🤝 4. Has this unit changed how you think about water safety? Explain.

It's okay to say "not really" — but try to explain why.

⭐ 5. What would you tell a friend who had never done this unit?

The most important thing they'd need to know.

🎯 My Goal

ONE THING I WANT TO KEEP WORKING ON:

ONE ACTION I WILL TAKE OUTSIDE SCHOOL:

ONE PERSON I WILL TALK TO ABOUT WATER SAFETY:

STUDENT SIGNATURE:

DATE:

🍏 For the Teacher — Formative Feedback

OBSERVED STRENGTHS:

SELF-ASSESSMENT ACCURACY (CIRCLE):

Overestimated · Accurate · Underestimated

TEACHER SIGNATURE & DATE:
